In this leaflet:

1. What Solucion Fiziologjik is and what it is used for
2. Before you use Solucion Fiziologjik
3. How to use Solucion Fiziologjik
4. Possible side effects
5. How to store Solucion Fiziologjik
6. Further information

1. WHAT SOLUCION FIZIOLOGJIK IS AND WHAT IT IS USED FOR

Solucion Fiziologjik is the isotonic solution of sodium chloride (0.9 %), which improves the nasal congestion by helping to liquefy nasal mucous secretions.

It is used in cases of nasal congestion.

Your doctor may have prescribed Solucion Fiziologjik for another purpose. Talk to your doctor if you want to know why you have been given this drug.

2. BEFORE YOU USE SOLUCION FIZIOLOGJIK

Do not use Solucion Fiziologjik if you are hypersensitive to any of the ingredients of the solution. There are no data for sodium chloride contraindications when used in the form of nasal drops in the above mentioned indication.

Take special care with Solucion Fiziologjik

There is no data for special care when using sodium chloride in the form of nasal drops, solution for the above mentioned indication.

Taking other medicines

Please contact your doctor or pharmacist if you are taking / using or have recently taken / used other drugs, including those taken without a prescription. Do not forget to inform your doctor for the treatment with Solucion Fiziologjik if you have been given another drug during treatment. However, pharmacological interactions with other drugs are not known.
